

LeoPhoenix Tech

Nov 15th, 2024
Paul Kavule
Kampala, Uganda

Dear Paul

LeoPhoenix Tech is pleased to extend the following offer of employment for the position of Senior .NET developer position. We are excited about the prospect of you joining the team and are confident that you will make an immediate impact.

Reporting Structure: You will report to the Software Engineering Manager, Najuna James and Bradin McClelland(CEO)

Term: Your starting date will be Nov 18th, 2024(tentative as per the laptop delivery and the client), and your employment will continue until you resign voluntarily or are terminated by the Company. Employment with LeoPhoenix Tech is employment at-will. In consideration of your employment with LeoPhoenix Tech, you agree to conform to the rules and regulations of the Company. Employment at-will provides that employment and compensation may be terminated with or without cause and with or without notice, at any time, by the employee or the Company.

You agree that, during the term of your employment with LeoPhoenix Tech you will not engage in any other employment, occupation, consulting, or other business activity directly related to the business in which LeoPhoenix Tech is now involved or becomes involved during the term of your employment, nor will you engage with any other activities that conflict with your obligations to LeoPhoenix Tech.

Laptop: The company will provide a work laptop for the job, which you will need to use. Please handle the laptop carefully and return it to the company when the job ends.

Compensation: The compensation will be \$2000/month plus additional payments for expenses. After 3 months, if the job goes well, the compensation will increase to \$2500/month. We will pay for the power back up and the internet price for 6 months

Notice: We request that all our employees, to the extent possible, give us 2 weeks' advance notice if they intend to resign.

Qualifications:

- Lead full-stack development using .NET C# for the back end and Angular for the front end.
- Manage complex data interactions with Microsoft Entity Framework and Azure Cosmos Database (or PostgreSQL with Citus).
- Build and maintain APIs using FastEndpoints.
- Ensure high performance and scalability of the platform across all areas.

- Collaborate with design, product, and engineering teams to maintain cohesive development practices.
- Participate in code reviews and mentor junior developers.

Qualifications:

- 5+ years of experience in full-stack development with .NET C#.
- Proficiency in front-end technologies, including Angular, TypeScript.
- Strong experience with Microsoft Entity Framework and Azure Cosmos Database (or PostgreSQL with Citus).
- Expertise in front-end and back-end optimization for performance and security.
- Familiarity with cloud infrastructure, especially Microsoft Azure.
- Strong leadership, problem-solving, and communication skills.
- Willingness to travel as required.

We look forward to working with you and having you as a member of the team!

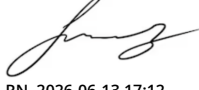

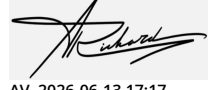

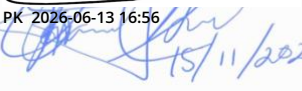

Best regards,
 Bradin McClelland
 CEO at LeoPhoenix Tech
 118 Ohio Ave N Ste A PMB 1053, Live Oak, FL 32064
